LEAD & COPPER RULE MONITORING AND REPORTING VIOLATION
MANDATORY LANGUAGE - TIER III

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Goforth Special Utility District has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Chapter 30, Section 290, Subchapter F. Even though these were not emergencies, as our customers, you have the right to know what happened and what we are doing (or did) to correct these situations.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During June-October 2016 we did not complete all monitoring or testing for lead and copper and therefore cannot be sure of the quality of your drinking water during that time.

The table below lists the contaminant(s) we did not properly test for during the last year, how often we are supposed to sample for these contaminants, how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which the follow-up samples were or will be taken.

Contaminant	Required sampling frequency	Number of samples taken	When samples should have been taken	When samples were or will be taken
Lead & Copper	*Annually*	*29 of 30*	*June – October 2016*	*June – October 2016 but will be retaken June-October 2017*

What is being done?

We are working to correct the problem. For more information, please contact Mario Tobias at (512) 376-5695 or 8900 Niederwald Strasse, Kyle, Texas 78640.

Goforth Special Utility District will be taking the following corrective actions:

Because Goforth Special Utility District failed to submit one of the thirty required lead and copper samples between June and October 2016, it is required to submit an additional thirty lead and copper samples between June and October 2017. Goforth Special Utility District will ensure that such sampling occurs and is properly reported to TCEQ.

Please share this information with all other people who drink this water, especially those who may not have received this notice directly (i.e., people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by Goforth Special Utility District. Public Water System Number: TX1050019

Date Distributed: 4-17-17

Instructions for preparing the required Public Notice:
Recopy the mandatory language above and insert the underlined information in the spaces indicated.

Public Notice delivery timelines:
The initial public notice shall be issued as soon as possible, but in no case later than 12 months following the initial violation. All notifications require the attached Certificate of Delivery due 10 days from the posting date of the above notice. Public notice delivery may be provided by the Consumer Confidence Report (CCR), if 12 month requirement is met.

Refer to 30 TAC §290.122 for additional information on Public Notification.
